

# We are looking for:

Dual studies - applied computer science (B.Sc.)  
or business informatics (B.Sc.) (m/f/d)

**abosco GmbH** is an internationally active software company based near Freiburg, Germany, specializing in the development of JIS and Industry 4.0 applications. We offer future-oriented software solutions in the field of high-performance logistics, especially in the automotive industry. Core competencies are mainly the development of JIT/JIS solutions and technically innovative e-business applications with JAVA, XML.

The cornerstone of our success - we are a well-coordinated and agile team. With many years of experience, initiative and know-how, we make every project of our customers fly!

For the start of studies in October 2023 or January 2024, we are looking for you for a dual study program - in cooperation with the Baden-Württemberg Cooperative State University:

## Dual study - applied computer science (B.Sc.) or business informatics (m/f/d)\*

### You will learn with us:

In your **practical phases**, you will gain a deep insight into various topics or actively work on projects:

- You will actively participate as a specialist in the development of modern applications, interfaces and tools.
- You will immerse yourself in the complex world of our networked IT and create viable solutions.
- You will learn Java and C# and the professional use of modern development environments.

In their **theory phases** at the dual university, the following content is on the schedule, among other things:

- You will learn the common programming languages and deepen your knowledge in the areas of algorithms, databases, operating systems and network typologies.

### Your profile:

- Abitur or (Fach-) Hochschulreife with good grades, especially math (...unfortunately we can't shake that, however, nothing stands in your way with a good Fachhochschulreife and a successfully completed study aptitude test of the DHBW).
- Enthusiasm for computer science, programming and new technologies
- very good analytical skills, careful way of working
- good knowledge of German and basic knowledge of English

We offer you a diverse and varied training environment with plenty of scope for your ideas. You will have the opportunity to work on challenging projects in an extremely dynamic environment and become part of a well-coordinated team in which everyone is on an equal footing and can rely on each other. You can find more benefits on our homepage.

Do you have any questions? Would you like to know more? We are looking forward to your inquiry.

Please send your application with details of your possible starting date by e-mail to [personal@abosco.com](mailto:personal@abosco.com) or visit our homepage [www.abosco.com/karriere](http://www.abosco.com/karriere).

### \*People are what counts, not gender.

*We focus on diversity, reject discrimination and do not think in terms of categories such as gender, ethnic origin, religion, disability, age or sexual identity.*
